Polygraph Professional Suite™

Credibility Assessment – Innovative Screening Solutions

Enhanced Video Recording

Definitive post-test analysis – Capture and record multiple video windows in one easy step. Limestone believes in attention to detail which is why our company was the first polygraph vendor to present synchronized video in 2003. In 2010, we further enhanced our video feature to include a multi-video system. This unique feature allows examiners to record up to three separate videos simultaneously. Enhanced video recording provides the opportunity to record various camera angles as well as examinee micro-gestures during the examination. Record multiple videos and merge these into one single video file for easy storage and retrieval.

Nonin Pulse Oximeter

Decrease inconclusive rates – Add more diagnostic value by measuring blood volume changes with our Nonin Pulse Oximeter. This medical quality transducer ensures precision cardio measurements every time. The Nonin Pulse Oximeter is approved by the US Food and Drug Administration and this guarantees superior quality and safety. If consistently accurate measurements are important to you don't settle for anything less than medical grade quality. The Nonin Pulse Oximeter is effortless to use, simple to evaluate and a compatible accessories for the Limestone DataPac_USB.

Stationary Examination Chair

Customize your polygraph suite – Limestone Technologies' intelligent chair design is an asset to any examination room. Our latest addition to our polygraph line is our Stationary Examination Chair. Choose any combination of seat, arm and feet sensors for reliable countermeasure detection. The chair frame is constructed with lightweight aluminum and anodized for a long lasting finish and upholstered in naugahyde for easy sanitation.

Polygraph Professional Suite™ SILVER Solution

Customized Polygraph Packages

All-inclusive or just the basics

Limestone's polygraph solutions meet your needs.

- ✓ The **Bronze Solution** offers a value-added economic package for the examiner who is interested in only the basics.
- ✓ The **Silver Solution** comes with absolutely everything required to conduct a polygraph test, including a Pelican instrumentation case and electronic countermeasure cushion.
- ✓ The **Gold Solutions** are equipped with pre-configured laptop or desktop computers that offer a complete turn-key solution.

Look Closer at Limestone Technologies Inc.

Since 1999 Limestone Technologies Inc. has provided two significant data acquisition solutions for public safety and security. We are recognized leaders in innovation and excellence. We are presently known for quality phallometric and polygraph solutions and we are now eager to apply our experience and attention to other avenues of equal importance. We believe that delivering medical grade instrumentation and intelligent software design can be brought to an array of sub markets with similar acquisition requirements. Supporting our clients is instrumental to our success and we look forward to growing our client base around the world.

Medical Grade Instrumentation

Limestone Technologies' instrumentation is designed and built to FDA approval and medical grade standards. Each DataPac is encased in a rugged plastic exterior to prevent any electro-static interference. The DataPacs operate with a USB connection and do not require the installation of device drivers. The pneumatic connectors are durable, air tight Luer connectors and eliminate the hassle of rubber "o" rings. The electronic inputs use approved touchless connectors with 24k gold plated pins for the best possible data collection.

Lifetime Customer Support

Depend on a reliable support team made up of technical support engineers available via telephone Monday-Friday, 9am-5pm EST. If support inquiries fall outside business hours we recommend the following support alternatives:

- ✓ Email Support: email our technical support team at support@limestonetech.com and include the nature of your inquiry, name and telephone number. This way the support team can address your concern within 24 hours.
- ✓ Application descriptions and how-to's are available in the comprehensive user manual.
- ✓ Watch and follow along with audio/visual tutorials.
- ✓ Browse through the online knowledge base.

Instrument Replacement Warranty

Limestone Technologies includes a 3-year immediate replacement warranty on all DataPac instrumentation. If you experience equipment problems contact the Limestone technical support team at 866.765.9770. The engineers will diagnose the problem and schedule an expedited shipment for a new instrument. A return shipping label will be included for shipment of the defective DataPac to Limestone's corporate office and you keep the new instrument. The replacement warranty offers peace of mind and prevents loss of income from cancelled tests.

Software Maintenance Agreements (SMA)

Limestone Technologies includes 1 and 3-year software maintenance agreements with all Polygraph Professional Suite packages. SMAs include unlimited downloadable software updates and also extend the instrument replacement warranty. Limestone SMAs are optional and do not affect technical support or the ability to access it. Rest assured that as a Limestone client you are entitled to lifetime email and telephone technical support regardless of whether you have a SMA or not.

Our Team

Limestone Technologies is made up of software and electronic developers, sales associates, technical support staff and independent representatives. Clients are also members of this team to provide valuable feedback and ensure our products meet their data acquisition requirements. Corporate head office is located in Odessa, Ontario, Canada. We have independent Limestone representatives located around the world and if you are interested in joining the Limestone team please email us at sales@limestonetech.com.

Our Values

Accountability. Professionalism. Innovation.

We focus on delivering outstanding customer support along with dependable hardware and software. We rise to challenges and provide solutions for our clients. We conduct ourselves in a professional manner and believe in providing all clients with the same level of service. We never sit still and are constantly implementing innovations and enhancements in all of our product lines. We believe that after sales support is as important as the sale and strive to create customers for life.
